

CleanNest Home Services

Customer Support & Operational Documentation

CleanNest Home Services is an on-demand residential cleaning platform that provides home, apartment, and office cleaning solutions through professionally trained cleaning personnel. This document outlines the operational procedures, booking policies, cancellations, service guarantees, refunds, safety standards, and customer support guidelines followed by CleanNest across all supported service regions.

1. Booking & Scheduling Policy

Customers may schedule cleaning appointments through the CleanNest website or mobile platform by selecting the preferred service category, date, time slot, and location. Service categories may include: • Standard home cleaning • Deep cleaning • Kitchen sanitization • Bathroom cleaning • Sofa and upholstery cleaning • Move-in and move-out cleaning • Office cleaning Appointment availability depends on workforce scheduling, regional demand, traffic conditions, and operational capacity. Customers are advised to book services at least 24 hours in advance whenever possible. Same-day bookings may be accepted based on availability but are not guaranteed.

2. Service Personnel & Safety Standards

All CleanNest cleaning personnel undergo identity verification, onboarding, and operational training before assignment to customer locations. Staff members are trained in: • Residential cleaning procedures • Equipment handling • Customer interaction protocols • Sanitization workflows • Safety compliance practices CleanNest reserves the right to reassign cleaning personnel due to emergencies, operational constraints, or regional workforce balancing. Customers are encouraged to secure valuables, confidential documents, fragile objects, and pets before service appointments begin.

3. Cancellation & Rescheduling Policy

Customers may cancel or reschedule appointments up to 4 hours before the scheduled service start time without additional charges. Late cancellations or repeated no-show incidents may result in cancellation fees depending on workforce allocation and travel expenses already incurred. In cases involving severe weather, public restrictions, operational emergencies, or health-related concerns, CleanNest may reschedule appointments to ensure staff and customer safety. Refund eligibility for cancelled bookings depends on payment status, cancellation timing, and operational processing stage.

4. Refund & Service Guarantee Policy

CleanNest offers a limited service satisfaction guarantee for eligible cleaning services. If customers experience incomplete or unsatisfactory cleaning results, they may report the issue within 24 hours of service completion. Depending on issue verification, CleanNest may:

- Schedule a re-cleaning session
- Provide partial service credits
- Issue full or partial refunds

Refund processing timelines generally range between 5–7 business days depending on banking systems and payment providers. Refunds may not be issued for:

- Customer absence during scheduled service
- Unrealistic cleanliness expectations beyond booked scope
- Pre-existing property conditions
- Delays caused by building access restrictions

5. Equipment & Cleaning Supplies

CleanNest cleaning personnel typically carry essential cleaning materials and sanitization supplies required for standard service operations. Specialized equipment requirements for premium services such as industrial-grade deep cleaning or upholstery extraction may require advance confirmation. Customers with allergies or chemical sensitivities are encouraged to notify CleanNest before the appointment so that alternative products may be arranged whenever operationally feasible. CleanNest is not responsible for damages caused by fragile, unstable, or pre-damaged household items during standard cleaning procedures.

6. AI Customer Support Assistant

CleanNest provides an AI-powered customer support assistant integrated into its support portal and partner platforms. The assistant uses Retrieval-Augmented Generation (RAG) workflows to retrieve contextual information from internal support documentation, FAQs, policies, and operational guides. The AI assistant may help customers with:

- Booking assistance
- Service pricing information
- Refund and cancellation policies
- Cleaning package recommendations
- Appointment status tracking
- General support questions

AI-generated responses are intended for informational support purposes only. Certain requests involving payment disputes, legal matters, safety incidents, or operational escalations may require human support intervention.

7. Customer Responsibilities

Customers are responsible for ensuring reasonable access to the service location during the scheduled appointment window. Delays caused by: • Locked premises • Incorrect addresses • Security restrictions • Building permission issues • Missing contact information may affect appointment timelines or result in cancellation charges. Customers are also expected to maintain safe working conditions for service personnel, including appropriate ventilation and basic electrical safety standards.

8. Privacy & Data Handling

CleanNest securely processes customer information including: • Names and contact details • Service addresses • Booking history • Payment references • Support interactions Customer data may be used for: • Appointment scheduling • Workforce coordination • Payment processing • Customer support improvements • AI support optimization CleanNest does not sell personal customer information to third-party advertisers. Limited operational data sharing may occur with payment providers, logistics vendors, cloud infrastructure platforms, and workforce management systems necessary for service delivery.

9. Escalation & Complaint Resolution

Customers experiencing unresolved issues may escalate complaints through: • support@cleannest.com • escalation@cleannest.com • Live support dashboard • Customer helpline Escalation requests are generally reviewed within 2–5 business days depending on issue complexity and verification requirements. CleanNest reserves the right to deny fraudulent claims, abusive refund behavior, or policy misuse identified during investigation procedures.
